

The Lehi Department

Sugar Company Pays Half Million Dollars

\$425,000 Goes to Farmers for Beets—Factory Men Get \$32,500, Farmers to Get Raise in Price of Beets and Belt Conveyors for Unloading Purposes.

Wednesday was pay day at the Lehi sugar factory and checks amounting to \$32,500 were paid to the employees who work in the Lehi factory and the cutting stations at Provo and Spanish Fork.

Monday will be pay day for the farmers, and \$425,000 will be distributed among them for beets delivered during October. This money will be distributed to Utah County from Spanish Fork north to Lehi. Some of it will go to Salt Lake County, and a small amount to Wasatch County. It is the money that will pay a big part of the taxes. Many of the merchants are making special sales, and everybody is hoping to get a part of it in some way or another.

Never was there as better fall for digging beets, and the result is the probably ninety-eight per cent of the beets are now in the factory sheds or in ricks at the Salt Lake County loading stations, or those at Springville, Mapleton and Pleasant Grove. Parley Austin estimates that there are about 150,000 at these places which will be put on the cars between now and December 1st. The yield has not exceeded 75 per cent of a normal crop this year, but the increase average will bring the total tonnage up to about 120,000 tons, and the high sugar content will come near giving the factory a record for ton of sugar produced.

The factory is making the best extraction in its history. Less sugar is going down the sewer than ever before. This is usually due to changes that have been made in the Steffens process department of the mill.

Walter Stimmel, the new man in the factory, is largely responsible for these changes, though Superintendent Gardner says that never before did the men pay closer attention to their work than they are doing this year.

The sugar company issued an announcement Monday that pleased the farmers immensely, and means a material raise in the price of beets next year. The new contracts that are being gotten out provide for a sliding scale. Commencing with \$1 for 15 per cent beets, an additional 10 cents will be given for each one-half per cent increase in saccharine. Thus beets giving 15 1-2 per cent would be paid \$5.10 per ton, 16 per cent ones \$5.20, 18 per cent beets \$5.60, etc. On this year's record the farmers would have been paid \$5.25 or \$5.30 in the Lehi district. Two years ago they would have gotten \$5.50 per ton. This will affect the farmers alike in the same district. Lehi, Spanish Fork, Payson, Elsinore, West Jordan, Garland and Idaho will each be separate districts, and the average of all the beets in each district will be taken as a basis for paying the increase. This increase is based on the supposition that the 1 cent tariff note will be maintained but as President Wilson and Secretary McAdoo of the treasury favor its retention, there is little fear of its removal.

Another feature that will please the farmers is the announcement by the company of its intention to install belt conveyors for unloading beets at the sheds. The only one in the United States is at Layton.

The main belt is thirty inches wide and 1,000 feet long and conveys the beets to a distance of almost 50 feet from the wagon dumps. The

belt carries its load on five rollers, placed in a manner to conserve the surface of the belt on which the beets are carried. From the main belt the beets are switched to a distributing belt of the same size and capacity as the main belt, and are distributed to any part of the beet sheds at will of the operator. The belts are run by electric motors placed at the extreme end of the belts, and the operation is very simple. One man works the entire contrivance.

Thanksgiving Carnival Preparations Progressing

The Second Ward Committee on the Thanksgiving Carnival held a meeting Tuesday afternoon and perfected some of the arrangements for the week of bazaar, meals and entertainments. All other meetings and social functions in this ward will be suspended that week, and if the committee has its way the Carnival will eclipse everything else going on in other parts. No decision has been definitely reached, but it is probable that the Royal will be given over for Carnival purposes for four nights, Sam's Academy one night and the Tabernacle the other night.

Monday night will open with what is planned to be the best vaudeville ever given in Lehi. Much outside talent will be used.

Tuesday night will be the musical evening, and it will be an evening of musical novelties. There will be selections on every known musical instrument, from the pipe organ down to the Jew's harp and tin whistle. And by the way, Nat Pierce of Pleasant Grove, on the time whistle is a night's entertainment of itself. Between the musical numbers will be dialect readings in Swedish, Irish, Dutch, etc.

Wednesday will be mutual night when Messrs. Johnson, Bennion, Miner and Mrs. Dulcie Francom will present the program. Details of this will be in our next issue.

Thursday will be a special program of movies, with more high class vaudeville before and between the reels.

Friday will be dancing night in the Smum's Academy. A special program of fun and dancing contests will be given. It will include exhibitions of the original turkey trot and other dances. A turkey will be given away. This grand ball will be intended for both the single and the married folks.

Saturday night will close the week of festivities with a production by the famed Lehi Home Dramatic Club. Mr. M. W. Ingalls, with F. A. Child as his assistant, is training the Thespians.

Season tickets to all the entertainments, having a combined value of \$2, will be sold for \$1, and will be taken around by young ladies.

More Cedar Valley Dry Farm Yields

Nearly 30,000 Bushels of Dry Farm Grain Harvested This Season, Besides 15,000 Bushels of Irrigated Grain.

Two weeks ago we gave a partial list of the dry farm yields in Cedar Valley, following is a completed list of the yields and the men who grew them:

	Wheat	Rye
James Carson	32	647
David Carson	81	...
David Prior	230	726
William Daw	...	422
Harry Mair	906	...
Mike Reska	747	191
M. T. Turner	43	...
David Thomas	1,452	...
William Thomas	1,280	...
J. E. Gullion	527	...
Warren Carson	132	...
Arthur Hawkins	1,078	...
J. Y. Mulliner	849	...
Dr. H. C. Holbrook	2,208	...
Peter C. Adams	394	...
David Berry	184	...
James Bushman	53	...

This, together with that previously reported, makes a total for the year of 23,789 bushels of wheat and over 6,000 bushels of rye. Besides this there was a total of nearly 15,000 bushels of irrigated grain grown in the valley. The coming year promises to be the biggest yield in the history of the valley, as a larger acreage than ever before has been planted this fall.

Avoid chilly rooms in the morning by using Cole's Hot Blast Heaters. They prevent colds and sickness.

Council Makes Official Count

Cramer Gains 4 Votes and Peterson 2; Others Are As Reported — Many Widows Have Taxes Remitted—Will Improve State Road.

The City Council held a regular session Tuesday evening and canvassed the returns from the recent election returns. There was no change in the general result, though there were slight changes in two instances. G. L. Cramer's vote was 238 instead of 234, bringing him within 6 votes of tying J. W. Wing, Jr. Leonard Peterson gained 9 votes in the official count.

Applications for remittances of taxes from many widows were made. All were granted relief, the amounts ranging from \$2.50 up to \$15, and the whole totaling \$331.35. A number whose taxes were remitted last year had no applications in this year. When they are all in, the total will probably aggregate over \$260.

The committee on library was authorized to consult with the librarian and place an order with Ralph Lehi for \$20 worth of magazines for the city library.

The recorder was instructed to look up the insurance on the city pavilion and not let it run out.

The committee on streets was instructed to make arrangements with the county regarding commencement of work on the state road in the city limits. The principal part of the work will be done between the People's Co-Op and the San Pedro sugar factory crossing. If any of the appropriation then remains unexpended it will be used on other parts.

The committee was instructed to see that the Rontowsky home back of G. A. Wall's barn be vacated, and if necessary, to use force in having its order carried out.

The school district was authorized to move the city piano from the gymnasium to the high school.

Bills aggregating \$694.50 were presented and warrants issued therefor. Among the larger ones were about \$150 for pipe for the Wines Park and \$130 for election expenses.

RODNEY ALLRED COMING HOME

In a letter received this week it is learned that Mr. and Mrs. Rodney Allred, who have been doing missionary work for the past three years, have been released, and sail for home this week, and will arrive in San Francisco about December 3rd. Mrs. James Allred is intending to meet them at Golden Gate Park.

While in New Zealand Mr. Allred established an agricultural school for the church, attended chiefly by natives and which is now in a flourishing condition. They will bring two little native born New Zealand children, less than three years of age, home with them.

GOATES' UNDERTAKING PARLORS

Leo Goates has had a force of carpenters busy this week remodeling the

Taylor building into modern undertaking parlors. The front will be divided into an office and a reception parlor. Back of this, and with a hallway to one side, will be the casket room, where from twenty to thirty caskets, ready for use, will be kept on display. This room is dustproof and will be entered only as becomes necessary. In the rear will be two more rooms, one to be used as a workshop and the other as an embalming room. Nowadays most people who die in the larger cities are embalmed, as this permits the bodies being kept for an indefinite time. This will be one of the features of the new establishment, which in several respects is one of the best equipped in the state.

Boy Nearly Electrocuted

Picks Up Live Electric Wire in Street and Couldn't Let Go.

Abbie, the little eleven year old son of Mr. and Mrs. H. J. Evans, had an experience Sunday that nearly ended his life. From some cause, an electric power line wire had burned into and one end fallen to the ground in the street near his parent's home.

Not knowing of the deadly danger of the wire, the young man picked up the end of it. Instantly, he was on the ground writhing with pain and unable to let go. William Worlton appeared along just then and pulled the boy loose, else the shock would undoubtedly have killed him. The lad recovered immediately after being disconnected, and suffered no after effects, but will use a long pole in picking up a piece of baling wire in the future.

LEHI'S RURAL ROUTE HANDLES MUCH MAIL

William Hadfield has one of the best patronaged rural mail routes in the state. For several successive counts he has exceeded any other nearby routes. During the month of October his special report shows 17,500 pieces of mail handled. This is three times what it was but a few years ago. The people on Lehi's Rural Route write lots of letters and read lots of papers.

CLOSES CONFECTIONARY STAND

The Interurban confectionary store closed its doors Monday and the owners took the stock to Spanish Fork where they have opened a similar establishment. The young ladies who have worked in the place are Misses Hattie Featherstone, Norma Hammer, Helen Roberts, Mrie McCarrie and Mrs. A. J. Kirkham.

NOT YET NAMED.

Contrary to reports, the First Ward Amusement Hall has not yet been named. A christening, however, will take place in the near future at a party which the ward is preparing to give for this special purpose.

An amusement committee consisting of Leo Goates, H. C. Hart, Carl Schow, Mrs. A. B. Anderson, Mrs. Mary Maudsley, Miss Mary Powell

Double Oven Capacity

Think of the economy of time and fuel—do twice the baking with half the fuel and half the trouble. This great saving of time and money made possible by the extra large oven found only in—

Cole's Hot Blast Range

The 14-inch oven height doubles the Oven Capacity. The extra two inches make it possible to place the largest roaster on the oven rack and still have the entire oven bottom free for other baking.

The double capacity oven—together with the Hot Blast fuel saving draft and the 12 other sanitary and labor saving devices make Cole's Hot Blast Range the best range ever made for family use.

and Miss Anna Stoddard has been appointed to have charge of and arrange for all the amusements to be given in the building.

Dennis Giles, Herbert Taylor, Morgan Lott, Vernon Anderson and Shirley Giles will be the ward orchestra and supply the music for the parties to be given there.

HILL-JENSEN WEDDING.

Miss Vanessa Hill and Welcome Jensen of Mayfield, were married in Salt Lake Wednesday. A shower in honor of Miss Hill was given at the home of her parents, Mr. and Mrs. Lawrence Hill, Monday evening, when many beautiful presents were given. The young people will make their home in Mayfield.

HOME ECONOMICS REORGANIZED

A good representation of Lehi leading ladies attended a special session of the Home Economic Association in the grammar school building Monday and effected a new organiza-

tion. The old positions were abolished and hereafter it will be governed by a chairman and vice chairman. Mrs. Kate Kirkham and Mrs. Alice Ross were elected respectively to these positions, and will chair the other officers.

There will be no regular sessions in the future, but the officers will point meetings as they are able secure special lectures. The U. A. has four teachers of home economics who are paid to do this work, they, as well as others, will give lectures at special programs.
